LIGHTING & ELECTRICAL
CATALOGUE

1993/2022

29 years of passion made of lights...

Lighting industry's requirements evolved towards lamps which at times should stand out prominently, other times need to be discreet and effective, but always are expected to interpret the trend, the modernity of making light. VITO 2022 catalogue fulfills all these expectations, with new models, product upgrades and refinements, a mature cluster of design, finishes, materials and lighting performance.

VITO is constantly committed to guarantee quality and assistance to a clientele already extended at European level, because light for us means passion to offer quality and long-lasting pieces that live by telling our story.

vito[®]
all about lighting

Editorial

For us a new catalogue is a unique opportunity to share our enthusiasm and our determination to serve you better.

We want to be your expert in Lighting solutions. Help us by being more demanding every day, experience our know-how, the entire company is focused on you with great responsiveness to meet your expectations more fully.

Our dynamic, expert sales force will support you every day for our joint success.

This catalogue is only part of our expertise, our employees working closely with you are key, and are at your service...

Warmest regards.
Ahmet Hanpolat
President of the Executive Board

vito[®]
all about lighting

VITO has a widespread international network of highly-valued business partners in over 40 countries. Vito is presented in West and East Europe, Middle East, Middle Asia and Africa.

OUR AIM

Our aim is the understanding of our partners' needs and stays at the centre of our business cooperation. We care for 2-way business-to-business cooperation. Together with our customers, we're redefining the future of lighting. We're creating the lighting company of the future.

OUR VALUES

VITO with all workers and customers are a big family with common values holding us together and aware of the most important responsibility of future hopes and beliefs. We know that to live common values that hold us together is the most important condition.

OUR MISSION

Our mission is to be focused to ensure high reliability and cost effective solutions to all consumers. We keep improving our components and products, productivity, quality control, added value, and cost reduction in order to offer market-aligned solutions worldwide.

NEMA SOCKET OPTION
 Adapter made according to the NEMA standard. Remotely controls the luminaire and accepts remote commands using WiFi or ZigBee protocol.

- 1 Housing accommodates up to 4 LED lighting units.
- Current feed: 200mA - 1500mA, depending on ambient temperature.
- Electronic operating device with stand-alone programming.
- Wind trap area: 0.21 m².
- Driver surge protection: 8/6 kV.
- Various light distributions for area, high bay, street or walkway lighting.
- Lens made from High optical efficiency PMMA lens, with aluminum support plate.
- Option for different CCT depending on the project.
- Option for different drivers depending on the project.
- Option for different housing color depending on the project.
- Gasket: EPDM Gasket (Hardness value A 20-25)
- Cover made of Tempered safety glass.
- Corrosion resistant aluminum bowl housing, pole adapter made of aluminum, for pole Φ60mm.
- Finishing: Electrostatic powder paint.

Lighting Poles

Outdoor lighting series

Made of Steel

Model Name: OCTA

What are OCTA Lighting Poles?

OCTA poles are metal octagonal hot-dip galvanized, suitable for installation of street lighting, park lighting or floodlights.

They are made in single pieces with a maximum length of 15m.

HOT GALVANIZING (Z)

Hot-dip galvanizing is done with a thickness of 70microns zinc and provides an anti-rust guarantee of 24 years.

This coating does not require any maintenance over the years.

PAINT (P)

Anti-rust acrylic powder paint. It is performed in furnaces and applied electrostatically to the pole.

Provides rust protection for several years and requires pole repair every 4-5 years, if is not galvanized but only painted.

HOT GALVANIZING + PAINT (ZP)

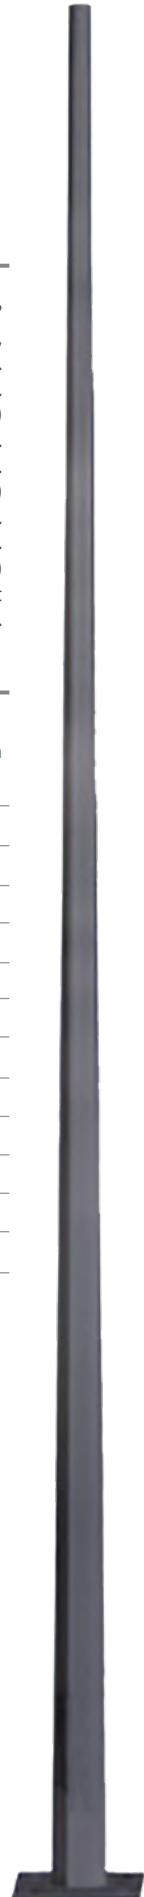

In addition to hot-dip galvanizing, the pole is painted with a matte or glossy acrylic paint. This gives extra years of protection. It also contributes in order to join projects that require a specific demands.

Lighting Poles

Outdoor lighting series

Made of Steel

Model Name: CYLINDRA

What are CYLINDRA Lighting Poles?

CYLINDRA poles are metal cylindrical conical hot-dip galvanized, suitable for installation of street lighting, park lighting or floodlights.

They are made in single pieces with a maximum length of 15m.

HOT GALVANIZING (Z)

Hot-dip galvanizing is done with a thickness of 70microns zinc and provides an anti-rust guarantee of 24 years.

This coating does not require any maintenance over the years.

PAINT (P)

Anti-rust acrylic powder paint. It is performed in furnaces and applied electrostatically to the pole.

Provides rust protection for several years and requires pole repair every 4-5 years, if is not galvanized but only painted.

HOT GALVANIZING + PAINT (ZP)

In addition to hot-dip galvanizing, the pole is painted with a matte or glossy acrylic paint. This gives extra years of protection.

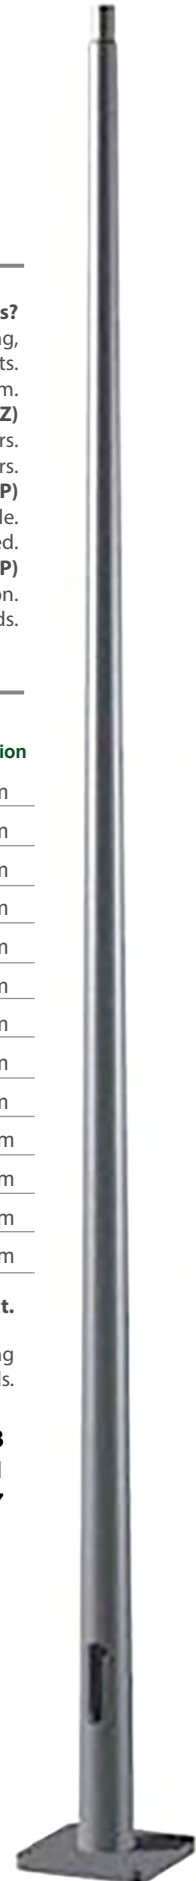

It also contributes in order to join projects that require a specific demands.

Lighting Poles

Outdoor lighting series

Made of Steel

Model Name: TELES

What are TELES Lighting Poles?

TELES poles are metal cylindrical telescopic pipes welded together hot-dip galvanized, suitable for installation of street lighting, park lighting or floodlights.

They are made in pieces with a maximum length of 15m.

HOT GALVANIZING (Z)

Hot-dip galvanizing is done with a thickness of 70microns zinc and provides an anti-rust guarantee of 24 years.

This coating does not require any maintenance over the years.

PAINT (P)

Anti-rust acrylic powder paint. It is performed in furnaces and applied electrostatically to the pole.

Provides rust protection for several years and requires pole repair every 4-5 years, if is not galvanized but only painted.

HOT GALVANIZING + PAINT (ZP)

In addition to hot-dip galvanizing, the pole is painted with a matte or glossy acrylic paint. This gives extra years of protection.

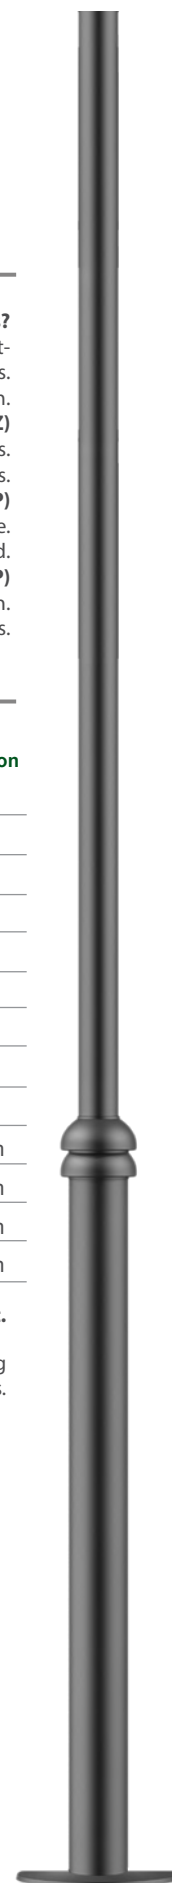

It also contributes in order to join projects that require a specific demands.

Arms

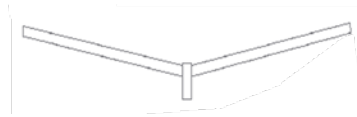

Outdoor lighting series

Made of Steel

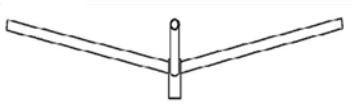

Model Name: ARM PS - For Street Lights

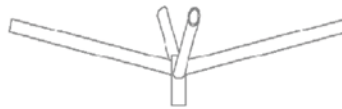

S - SINGLE

D - DOUBLE

T - TRIPLE

Q - QUADRUPLE

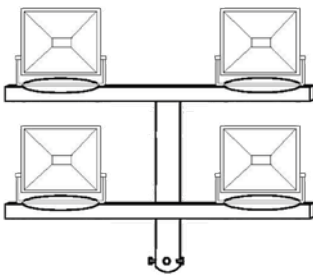

- There are 4 most common different types of arms which are used for street lighting with lengths: 800mm, 1000m & 1200mm.
- They can be made in any length and given any angle.
- They can also be galvanized, painted or galvanized and painted together.
- They have as standard a vertical piece of steel which is 20cm in order to be installed outside of the top of the pole.

Code	Length	Thickness	Weight	Down Part Diam.	Pipe diameter	Vertical Angle	Horizontal Angle	Finishing
9990710	100mm	3mm	9kg	Φ60mm	Φ60mm	15°	0°	Galvanizing
9990720	100mm	3mm	18kg	Φ60mm	Φ60mm	15°	90°	Galvanizing
9990730	100mm	3mm	27kg	Φ60mm	Φ60mm	15°	120°	Galvanizing
9990740	100mm	3mm	36kg	Φ60mm	Φ60mm	15°	90°	Galv.+Paint.

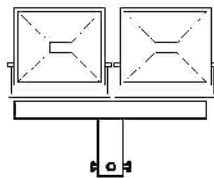

We can make arms according to the technical specifications of each project.

Made of Steel

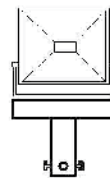

Model Name: ARM PF - For Floodlights

Q - QUADRUPLE

D - DOUBLE

S - SINGLE

- There are 3 most common different types of arms which are used for floodlighting with lengths: 400mm, 800m, & 1600mm.
- They can be made in any length.
- They can also be galvanized, painted or galvanized and painted together.
- They have as standard a vertical piece of steel which is 20cm in order to be installed outside of the top of the pole.

Code	Length	Thickness	Weight	Down Part Diam.	Dimensions	Down Part Length	Horizontal Angle	Finishing
9990750	400mm	3mm	7kg	Φ60mm	40x40mm	200mm	0°	Galvanizing
9990760	800mm	3mm	14kg	Φ60mm	50x50mm	200mm	0°	Galvanizing
9990770	2*800mm	4mm	28kg	Φ60mm	60x60mm	800mm	0°	Galvanizing

We can make arms according to the technical specifications of each project.

Arms

Outdoor lighting series

Made of Steel

Model Name: ARM-T

9990780

9990790

9990800

- 9990780: The purpose of this arm is to be installed on a wall. The plate base is 200x200mm with 4 holes. The pipe is in 45°.
- 9990790: The purpose of this arm is to be installed on the top of the pole and give the ability to choose the necessary angle.
- 9990800: The purpose of this arm is to be installed on the top of the pole and give the ability to use it for fixtures with smaller diameter in the base. with 4 holes. The pipe is in 45°.

Code	EAN Code	Diameter of the Base	Diameter of the Top	Galvanized	Finishing	Price

9990800	6972538045843	Φ60mm	Φ48mm	Yes	Powder Coated	

Anchors

Outdoor lighting series

Made of Steel

Model Name: ANCH

- There are 5 most common different types of anchors which are used for poles with lengths: 600mm, 650m, 700mm, 750 & 800mm.
- They can be made in any length.
- They are welded together.

Code	Diameter of the Anchor	Dimensions	Suitable for Pole	Weight	Welded	Finishing
9990810	14mm	220x220x600mm	3m/4m/5m	10kg	Yes	Galvanizing
9990820	16mm	250x250x650mm	6m/7m	15kg	Yes	Galvanizing
9990830	22mm	280x280x700mm	8m/9m	20kg	Yes	Galvanizing
9990840	24mm	330x330x750mm	10m/11m	25kg	Yes	Galvanizing
9990850	26mm	350x350x800mm	12m/13m/14m/15m	30kg	Yes	Galvanizing

We can make anchors according to the technical specifications of each project.

LED Strips

Led strips & transformers series

Made of Double PCB

Model Name: STRIPLED - A 3.6W

2 YEARS WARRANTY

-  LED
-  EVERY 5 CM
-  12V
-  30000h
-  x30000

LED Dimmable Bulbs

Bulbs series

Made of Plastic & Aluminium

Model Name: OPTILED+ A60 **STEPLESS DIMMABLE**

2 YEARS WARRANTY

- E27
- LED
- 170-260V
- 25000h
- x30000
- 270°
- Dimmable
- 0.00%
- 20/+40°C
- IP20
- Ra>80

- No need to worry if it is too bright or too low.
DIM without DIMMER!!!

Thanks to patented stepless dimming technology, you are free to choose how bright your bulb to be anytime.

- Fastly switch ON/OFF your bulb to start dimming continuously. Choose the brightness level you wish and turn it OFF, wait 3 seconds and turn it on again. Your smart bulb will instantly remember where it's set up last time.

G+

Up to 70% energy saving using these bulbs

ION SENSOR
 220-240V
 360o
 -20/+50°C
 IP21

- The SD Battery-Operated Ionization Smoke Alarm is a single-station alarm with an early warning signal. This alarm utilizes ionization sensing technology to activate in the event of a smoke or fire incident and its compact design lends it a discreet profile in your home or business.
- Powered by a 9-Volt battery, this smoke alarm will protect you, your family and home during a power outage. - When the battery begins to lose power, a low-battery alert will begin to chirp to notify you it is time to replace.
