all about lighting

VITO has a widespread international network of highly-valued business partners in over 40 countries. Vito is presented in West and East Europe, Middle East, Middle Asia and Africa.

OUR AIM
Our aim is the understanding of our partners' needs and stays at the centre of our business cooperation. We care for 2-way business-to business cooperation. Together with our customers, we're redefining the future of lighting. We're creating the lighting company of the future.

OUR VALUES
VITO with all workers and customers are a big family with common values holding us together and aware of the most important responsibility of future hopes and beliefs. We know that to live common values that hold us together is the most important condition.

OUR MISSION
Our mission is to be focused to ensure high reliability and cost effective solutions to all consumers. We keep improving our components and products, productivity, quality control, added value, and cost reduction in order to offer market-aligned solutions worldwide.

Our new catalog 2024-2025 offers new solutions based on customers demands & our creativity.

More specific:

New series of architectural lighting.

New series of decorative lighting fixtures.

New series of indoor and outdoor led strips.

New aluminium profiles & controllers for led strips.

New series of solar lighting fixtures.

New luminaires for urban and street lighting.

New series of high luminosity bulbs and much more...

Now you have only to open the catalog and explore the entire range of our products.

GENERAL INFORMATION

MAGNA S1 is a rotatable led spot track lights family, equiped with CREE LED sources.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products.

It can be operate on the magnetic 2 lines track rails of S20, Recessed, Surface & Suspended systems.

They are equiped with microprismatic diffuser with 24° and UGR<15.

Housing of aluminum board electrostatically painted with sandblasted finishing in sand black.

MAGNA CI

9910770	Angular power transimitter

Internal power transmitter with flexible angle for both surface or suspended rails. If you have installed more than one rails in an angle you need this accessory in order to transfer the power from one rail to another.

MAGNA SI

9910760	Straight power transimitter

Internal power transmitter with straight angle for both surface or suspended rails. If you have installed more than one rails in an angle you need this accessory in order to transfer the power from one rail to another.

MAGNA PE

9910750	Hanging set of 2 pcs

2 twisted steel wires, with maximum length of 1.5m, with steel fittings for fixing on the ceiling for suspended rail.

MAGNA C

9910740	End caps

2 pcs of end caps for surface mounted track rails.

GENERAL INFORMATION

MONOLINO C is a family of rotatable single phase led spot track with 3xCCT DIP-switch function and no flicker for eye protection.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products.

Suitable for 1 circuit track rails 9902670, 9902680, 9902690, 9902700, Surface & Suspended systems.

They are equiped with microprismatic diffuser with 38°.

Housing of aluminum board electrostatically painted with sandblasted finishing in sand black & sand white.

2 YEARS WARRANTY	WATTS	LED INSIDE	SINGLE PHASE	220-265V	IP20	UGR <15	CRI Ra>80	30000h	x30000	Non Dimm	25/+50°C

GENERAL INFORMATION

PROFILED SL1 is a Professional line of Linear fixtures.

SAMSUNG LED sources applied in our standard version of Linear Light Group solutions.

OSRAM LED sources applied in our High Lumens version of Linear Light Group solutions, offer highest performance and long duration.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products.

Linear standard versions are equiped with PHILIPS or TRIDONIC drivers.

Dimmable versions are equiped with TRIDONIC 3 in 1 driver with option of 3 different dimmings (DALI / I-10V / PUSH BUTTON).

It can be installed on the surface of the ceiling or Suspended. The suspension set must be ordered separately, (**HSL**).

It can be installed on the wall. The mounting set must be ordered separately, (**WML**).

Polycarbonate difusser with High Permeability. There is option to put microprismatic diffuser with 60º and UGR<15. It has to be ordered seperately (**MDL**).

Housing of aluminum board electrostatically painted in sand white & sand black.

It can be installed in-grid, on the surface of the ceiling without additional frame or suspended with the pendant set PANELFIX-P (suspension set has to be ordered seperately).
Housing of aluminum board electrostatically painted with sandblasted finishing in mat white.

Diffuser of opal polystyrene with anti-yellow treatment with 120º beam angle.

Standard driver is included in the fixture.

Dimming option, with PANELDIM, 3in1 dimming with TRIDONIC driver one4all (DALI-2 DT 6, DSI, switch DIM, corridor FUNCTION V2). Driver has to be ordered seperately.

Emergency unit, EMUP 1, with 3 hours autonomy is available for ZAGREY and has to be ordered seperately.

PANELFIX C

9901240   SET by 4 pcs

Set by 4 clips necessary for recessed mounting of
the panel .

PANELFIX P

9901230   Recessed Vertical Corner

Set by 4 wires and 4 bases, necessary for suspen-
sion mounting of the panel. The length of the wires
is 1.5m and is adjustable.
PANELFIX S

9901212   Frame 60x60

Disassembled set of frame 60x60 for surface
installation of the panels. Is made by aluminium.

PANELDIM

9990860   3 in1 Dimmable driver   50W

Tridonic driver one4all (DALI-2 DT 6, DSI, switch DIM, corridor-
FUNCTION V2). You can select the desired method of dimming
according to the needs of the project.
Dimming range 10 – 100 % (min. 25 mA).
Max. output power 50 W.

EMUP

6200150   Emergency unit 3-50W

Emergency Unit ready to use. Offers 3 hours working time
on 3W output power. Battery: LiOn 3.7V 2200mAh. It can be
connected on panels from 3-50W.

EMUP 1

6200160   Emergency unit 10-50W

Emergency Unit ready to use. Offers 3 hours working time on
10W output power. Battery: LiOn 3x3.7V 2200mAh. It can be
connected on panels from 10-50W.

GENERAL INFORMATION

PROFILED PS is a Professional line of fixtures.

SAMSUNG LED sources applied in our standard version of Donut Ceiling Linear Light Group solutions.

OSRAM LED sources applied in our High Lumens version of Donut Ceiling Linear Light Group solutions, offer highest performance and long duration.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products.

Standard version is equiped with PHILIPS or TRIDONIC drivers.

Dimmable versions are equiped with TRIDONIC 3 in 1 driver with option of 3 different dimmings (DALI / I-10V / PUSH BUTTON).

Intended for surface or Suspended installation. The suspension set which is including in the package consisted of 1 square rozete and 4 ropes with length of 1.5m each which are adjustable.

Housing of aluminum board electrostatically painted with sandblasted finishing in sand white & sand black.

Different body color is possible according to the project needs.

Polycarbonate difusser with High Permeability.

GENERAL INFORMATION

PROFILED PR is a Professional line of fixtures.

SAMSUNG LED sources applied in our standard version of Donut Ceiling Linear Light Group solutions.

OSRAM LED sources applied in our High Lumens version of Donut Ceiling Linear Light Group solutions, offer highest performance and long duration.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products.

Standard version is equiped with PHILIPS or TRIDONIC drivers.

Dimmable versions are equiped with TRIDONIC 3 in 1 driver with option of 3 different dimmings (DALI / I-10V / PUSH BUTTON).

Intended for surface or Suspended installation. The suspension set which is including in the package consisted of 1 round rozete and 3 ropes with length of 1.5m each which are adjustable.

Housing of aluminum board electrostatically painted with sandblasted finishing in sand white & sand black.
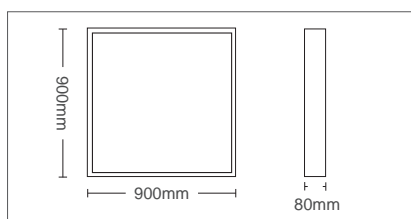

Different body color is possible according to the project needs.

Polycarbonate difusser with High Permeability.

STRIPLED PLUS 9.6W

GENERAL INFORMATION

STRIPLED PLUS is an advanced double PCB Flexible LED strips (SMD 2835, 180 LED/m), available with monochromatic color temperature, warm white, neutral white or cool white, non waterproof (IP20).

Total length of the roll is 5m.

Power supply cable at each side,

Voltage loss after 5m is no more than 5-8%.

3M adhesive tape is used for better bonding results with surfaces .

Sectionable every 50mm or multiple of this size.

GENERAL INFORMATION

AMPLI RGB is an amplifier for led strips.
Used for DC12V 4 pin 5050 RGB LED strips &
DC24V 4 pin 5050 RGB LED strips .
The amplifier is common anode .
This is normally used for RGB LED lights, but
also you can use it for monochromatic/simple
color LED (connecting each color on inch
channel).
Multiple Amplifiers can be used in a daisy
chain.
The maximum load is 12A, 144W on 12V &
288W on 24V.

2 YEARS WARRANTY	12A max	12-24V	IP20	30000h	Dimmable	-20/+45°c

GENERAL INFORMATION

DANUBE is improved family of waterproof, IP66, projectors equipped with SMD LEDs. Equipped with 3CCT DIP switch for adjusting the color temperature between 3000K, 4000K, and 6000K with ease!

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products.

Mounting arm of profiled steel board, also painted in sandblasted both dark grey and white color.

Lenses of polycarbonate.

Transparent tempered glass diffuser with a thickness of 4 mm.

Constant current LEDs drivers included.

Housing of die-cast aluminum alloy, with high coefficient of thermal dispersion.

Power supply cable covered by rubber, 3x0.75 mm², with 0,15m length.

GENERAL INFORMATION

SAHARA 100, is a solar waterproof, IP65, projector equipped with SMD LEDs & photo-sensor.

Transparent diffuser.

Housing of ABS in black color. polycarbonate solar panel and glass.
New type ETFE Photovoltaic monocrystalline panel 5V - 10W.
Battery: Lithium 2xLiFePO4 3.2V 8000mAh
Charging time: 6-8h
Autonomy: 12-14h
Is equiped with remote control with the following functions:

ON - Brightness will be decreased from 100%, the light will be off after 12-14 hours.

OFF - Light off.

HIGH LIGHT - The button is effective when the light is on, the brightness will keep 165%, and light will be off after 3 hours.

SLIGHTLY LIGHT - The button is effective when the light is on, the brightness will keep 35%, and the light will be off after 12-14 hours.

2H - Keep 165% brightness, the light will be off after 2 hours.

4H - Brightness will be decreased from 100%, the light will be off after 4 hours.

6H - Brightness will be decreased from 100%, the light will be off after 6 hours.

AUTO - Brightness will be decreased from 100%, the light will be off after 12-14 hours.

GENERAL INFORMATION

SOLARIS-S, is a solar waterproof, IP54, projectors equipped with SMD LEDs, PIR & photosensor.
Made of: ABS
Panel: Polycrystalline 5.5V, 1.5W
Battery: Lithium 18650 3.7V 2Ah, 7.4W
Charging Time: 4-6 hours
Discharging Time: 8 hours Constant Light Mode
Function: photosensor + PIR sensor.
Human sensor mode 1:
In the dark, it will be weak light(7%) and automatically on strong light(100%) for 30s once sensing people movement and back to weak light afterwards
Human Sensor Mode 2:
In the dark, the light will automatically on strong light(100%) for 30s once sensing people movement and off afterwards.
Light sensor mode 3:
In the dark, the light will be on consistently on weak light(7%)
Detection Distance of PIR Sensor: Max 8m.
Installation Height: 0.8-3m.

GENERAL INFORMATION

LAMPAS is a family of rechargable portable led torches.

LAMPAS 13 is a two way light sources, side light (145Lm & 2W) torch (300Lm & 5W), total 7W output power.

Characteristics:

Battery: Lead-Acid 4V 1600mAh

Charging time: 12 - 15h

Discharging time: 4h for the side light, 2h for the torch.

Non-slip Grip.

Class II.

Color: Red & black.

Dimensions: Φ91x287mm.

2 pin power cable with euro plug and 0.5m long for charging included in the package.

GENERAL INFORMATION

ARC nail clips are pre-mounted fixing elements with a nail and clip. The nail clip is positioned with the inserted cable and the nail is hammered in. The VITO nail clips are ideal for quickly and securely fixing individual cables in wood, wooden materials, plasterboard, aerated concrete and vertically perforated brick. Are available in 8 different sizes and the blister is with zip opening which means you can open and close many times. 100pcs in each bag, each size.

GENERAL INFORMATION

TIE P is a family of plastic, flame retardant, cable ties made of high quality nylon PA6.

They have strong bearing capacity and are not easy to break.

Bright color, good toughness, not easy to aging and long service life.

Strong, durable great for organizing cables. They are available in 2 colors, white & black.

Black color cable ties are having a UV film for extra protection against the sun.

GENERAL INFORMATION

MS 06 is a surface mounted PIR sensor made of polycarbonate.
The base is rotatable horizontal and verical
Is intended for internal installations as its protection class is IP20.
Detection Angle: 360°.
Maximum Detection Range:<6m (24°C).
Motion detection speed:0,6~1,5m/s.
Height of Installation: 2,2-4m.
Ambient Light: 3~2000lux.
Time Delay: 10sec-120sec.
Available in white color.

GENERAL INFORMATION

SD ION is a single-station alarm with an early warning signal, made of plastic.

Is intended for internal installations as its protection class is IP21.

This alarm utilizes ionization sensing technology to activate in the event of a smoke or fire incident and its compact design lends it a discreet profile in your home or business.

Powered by a 9-Volt battery (not included), this smoke alarm will protect you, your family and home during a power outage. - When the battery begins to lose power, a low-battery alert will begin to chirp to notify you it is time to replace.

Available in white color.

GENERAL INFORMATION

VENTI G1 is the most commercial exhaust fan of VITO.
Front surface of the fan is Gril.
The Discreet slim profile with the length of the neck of the back side to be less than 60mm, makes it suitable almost for any project.
Diameter of the back pipe is Φ100mm.
It can be installed recessed in ceilings or walls.
Long life and silent motor, lasts 50.000 hours and the noise is <35dB (3m).
Ability to absorb 100m³/h of air .
Consumption of the fan is 12W.
Available in white mat color.
Electrical connection can be done inside or outside of the fan.
